

TAU Tidbits October 2017

A Message From Our New Chair

It is a pleasure to share this edition of TAU Tidbits with you, my first as a new Governor of Tel Aviv University and newly elected Chair of Canadian Friends of Tel Aviv University in Ontario and Western Canada.

I look forward to working with Stephen Adler and our new Executive and Board of dedicated Directors to increase awareness for and support of Israel's leading University. Situated in Israel's cultural, financial and technological capital, TAU shares Tel Aviv's unshakeable spirit of openness and innovation - and boasts a campus life as dynamic and pluralistic as the

metropolis itself. Tel Aviv the city and Tel Aviv the university are one and the same - a thriving Mediterranean center of diversity and discovery.

As we have done I will continue to use this e-newsletter as a vehicle to provide you with news of the latest research from Tel Aviv University and extend invitations to you for our events and speaker series. Please reach out to me at any time, at boardchair@cftau.ca should you have questions about the work being done at Tel Aviv University or wish to join us in supporting Israel's largest and most comprehensive institution of higher learning - home to more than 30,000 students studying in nine faculties and more than 125 schools and departments across the spectrum of sciences, humanities and the arts.

Whatever your passion, area of curiosity or field of interest ask me how TAU is advancing research, breaking down the walls between disciplines and striving to address the twenty-first century's most pressing challenges through bold, interdisciplinary solutions.

Thank you for your past and future support. I look forward to meeting you at one of our events or seeing you on campus in Israel soon.

Nathan Disenhouse, Chair, Ontario & Western Canada
Canadian Friends of Tel Aviv University

TAU News

**A new way to observe the
Universe.**

TAU utilizes Nobel-winning research to expand our understanding of matter and space.
