**Big
Idea...**

**Support Scholarships
at Tel Aviv University**

The gift of a TAU scholarship is a gift to the future of Israel itself.

“*My scholarship
is like oxygen.*”

TAU students are tomorrow's leaders and innovators. They ensure that Israel will continue to thrive in science, technology, medicine, arts and culture. However, by the time they start academic studies most Israeli students are older, have completed military service, and must support themselves and often families as well. Scholarships allow them not only to survive financially but to excel in their studies.

You can make all the difference in the lives of talented students.

By supporting scholarships at Tel Aviv University, you provide a lifeline to the young people who will conceive Israel's next big ideas.

Lior Turgeman

Master's student in Management & Environmental Studies

▶ **Big Idea:** An environmental entrepreneur, Lior recognized that home gardening could be a game-changer in sustainability, policy and other areas. Her scholarship was a key factor in deciding to research this idea at TAU.

“ I wanted my research to have an **impact on the world**, not to sit on a shelf. To accomplish this, I needed time and that's what my scholarship gave me. ”

Nadia Alatawneh

Undergraduate student in Architecture

Hailing from the Negev, Nadia is **the first Bedouin student to study architecture at TAU.**

The field allows her to express her creativity and help people. She hopes to apply her skills and knowledge to benefit her community.

Ilya Breslavskiy

Undergraduate student in
Engineering & Biology

Ilya made Aliyah from Russia after high school. As a lone immigrant, he has found **a warm home in Israel and at Tel Aviv University.**

Helen Sarah Steyer &
Thomas Mark Steyer Scholar

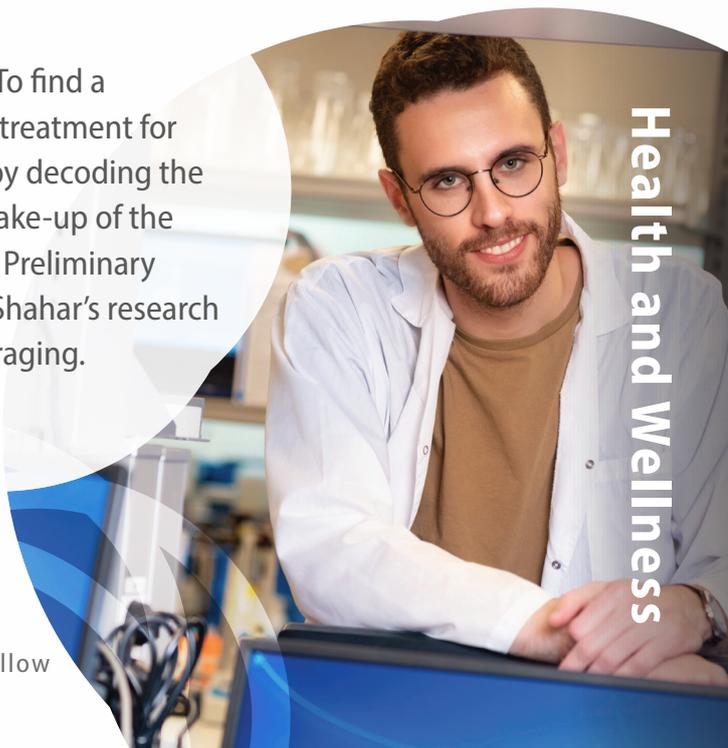

*"In Moscow, I had every opportunity open to me, but I preferred to come to Israel **where I feel I belong.**"*

Big Idea: To find a biological treatment for deafness by decoding the genetic make-up of the condition. Preliminary results of Shahar's research are encouraging.

Klass Family Fellow

Shahar Taiber

MD-PhD student in Medicine

Walanpatrias Foundation Doctoral Fellow

A person without roots cannot grow and flourish. If they are not rooted in the ground, the wind will knock them over.

▶ Belaynesh immigrated to Israel from Ethiopia at the age of 15. Now, decades later, her children don't speak Amharic or Tigrinya and can't communicate with her parents. This painful disconnect resulted in Belaynesh's PhD thesis about the emotional cost of losing a native tongue. She is formulating recommendations for the government to implement language preservation programs for immigrant communities.
